Olympic awarded Junckers floor contract

Olympic Gymnasium Services have been awarded the prestigious Junckers Floor Products & Maintenance contract for wood sports floors. The contract is awarded to companies whom Junckers consider have the knowledge & experience to offer their customers the high quality after sales service they expect.

All Junckers floors have a warranty after installation, and should be cleaned and maintained correctly to ensure optimum performance and lifespan. Olympic Gymnasium Services offer advice and suitable Junckers cleaning products for this purpose.

Wood sports floors should also be inspected regularly, and after a number of years use should be sanded & re-sealed to further prolong their high performance. The Junckers maintenance contract means Olympic Gymnasium Services can carry out these inspections and can also sand & seal floors, after which the floor will be given a further 10 year Junckers warranty.

For full details of the Junckers products & services we offer visit:
